## New Features Summary

### DSAuditor Web Client

The DSAuditor Web client is a hosted, browser-based reporting and data-auditing tool representing the product's next generation user experience. This tool is a centralized multi-user information share point designed to facilitate advanced reporting and information browsing. Based on advanced portlet-based technologies such as JSR-168, the client is designed to facilitate an entirely customizable user interface experience allowing for a multitude of information display arrangements up to and including the use of DSAuditor's information within your company's own pre-existing portlet-based intranet. For more information, see the *DSAuditor User Guide*; for installation instructions, see "System Requirements and Database Support" and "Installing DSAuditor Web Client Server" in the *DSAuditor Installation Guide and Technical Reference*.

### Oracle Support for Windows Collector

The DSAuditor Collector for Windows can now monitor Oracle databases running on Windows servers. For details, see "DSAuditor Collector for Windows" in the *DSAuditor Installation Guide and Technical Reference*.

**Support for Linux Servers**

The DSAuditor server components and the DSAuditor Collector for Unix can now be installed on Linux servers running RedHat Enterprise Linux 3 or 4 or SUSE Linux Enterprise 10. For more information, see the *DSAuditor Installation Guide and Technical Reference*.

**DSAuditor Virtual Appliance for Windows**

The new DSAuditor Virtual Appliance allows you to run the DSAuditor server components in Windows-only environments using VMWare Server for Windows. For more information, see "DSAuditor Virtual Appliance" in the *DSAuditor Installation Guide and Technical Reference*.

## Additional Resources

### Licensing Your Embarcadero Technologies Product

All Embarcadero Technologies products include a 14-day trial period. To continue using the product without interruption, we recommend that you license it as soon as possible. To license your product, use the License Request Wizard found in the Help menu of your respective product. If you have not yet purchased your Embarcadero Technologies product, contact [sales@embarcadero.com](mailto:sales@embarcadero.com), or [uk.sales@embarcadero.com](mailto:uk.sales@embarcadero.com) for sales in the EMEA region.

### Embarcadero Technologies Product Support

The Embarcadero Technologies Web site is an excellent source for additional product information, including white papers, articles, FAQs, discussion groups, and the Embarcadero Knowledge Base. Go to [www.embarcadero.com/resources](http://www.embarcadero.com/resources), or click any of the links below, to find:

- [FAQ](#)

### Embarcadero Technologies Technical Support

If you have a valid maintenance contract with Embarcadero Technologies, the Embarcadero Technical Support team is available to assist you with any problems you have with our applications. Our maintenance contract also entitles registered users of Embarcadero Technologies products to download free software upgrades during the active contract period. Evaluators receive free technical support for the term of their evaluation (14 days).

We encourage you to open technical support cases via the [Technical Support request form](#) at the [Embarcadero Technologies Web site](#). For additional information about Embarcadero Technologies Technical Support, go to the Support page on our Web site.

### Embarcadero Technologies on the Web

To download evaluations of other Embarcadero Technologies products or to learn more about our company and our products visit us at [www.embarcadero.com](http://www.embarcadero.com).
